Re: Emeryville Public Market, 1001 Shellmound Avenue Emeryville

Congratulations!

Emeryville Public Market common area is certified as a Bay Area Green Business! Onsite verification inspections have taken place, and all standards were achieved as of today. As a Green Business, you have achieved exceptional *pollution prevention* and *conservation* of resources. In addition, you have met *environmental compliance* requirements. As a result of attaining Green Business standards, you will receive the following benefits for the duration of the inspection cycle (three years):

- Positive public recognition from your peers and the community!
- Public promotions through the Green Business Program!

Enclosed you'll find your Green Business window logo, certificate and pledge. Please display these!

I am also including a Green Business Directory with the names of Bay Area Green Businesses. Our web site ([www.greenbiz.ca.gov](http://www.greenbiz.ca.gov)) lists Green Businesses through out the greater Bay Area. Please consider using other Green Businesses for services, it's one more way to be 'green'!

Upcoming Green Recognition, gatherings and public promotions:

Our next Green Business recognition and 10 year anniversary event will be Thursday, April 26, 2007. There will be sponsorship opportunities connected to this event. I will send more information as the dates draw near. I hope you will join us.

*And*, we are testing a new outreach 'post card' that tells the public and your clients "What it means to be green". Let me know if you would like a complimentary supply of these cards. A sample card is enclosed.

If you have any questions about environmentally preferable practices, the Green Business Program, our events or promotions, please call me at 510.567.6770 or email [pamela.evans@acgov.org](mailto:pamela.evans@acgov.org).

Sincerely,

A handwritten signature in cursive script that reads "Pamela J. Evans".

# Green Business Program

## GREEN BUSINESS PLEDGE

We believe that a successful business is dependent on a healthy environment. We are actively working to show our environmental responsibility to our community by committing to the following objectives:

- To comply with all applicable regulations and strive to exceed compliance
- To conserve energy, water materials and other resources
- To develop and implement practices that prevent pollution and waste
- To be an environmentally responsible business within our community

## OUR COMMITMENT TO CONTINUOUS IMPROVEMENT

Here are some additional resource conservation or pollution prevention practices we plan to implement in our shop in the next three years.

What does it mean...  
to be **Green?**

Bay Area Green Business Program  
Environmental Values At Work

# Being a Green Business means...

## Environmental values at work.

We are committed to creating a healthier, cleaner workplace for our customers, employees, community—and you!

## Some actions Green Businesses take:

Buying only recycled paper and copying double-sided

Cleaning with less toxic products

Using efficient lighting systems to save energy

Walking, biking, taking transit or buying hybrid vehicles

Remodeling with green materials and low-VOC paint

Recycling all office paper and ink cartridges

Conserving water with low-flow toilets and faucet aerators

## Working together

The Green Business Program verifies that businesses meet higher standards of environmental performance. Our partnership of government agencies and utilities helps local businesses comply with all environmental regulations and take actions to prevent pollution and conserve resources.

## Choose Green Business!
